RG104 E-1 Box 133

U. S. Coast and Geodetic Survey Office,

Washington, Feby 24 1885.

Hon. W. Snowden
Supt. Phila. Mint:

Dear Sir:

A collector of historical facts has asked me to inquire of you whether the earlier Presidents of the United States did not, at the close of their administration receive a Gold Medal with their head thereon and a statement of the fact of having been President &c.

And when this practice, if it was such, ceased; and by what act of Congress &c.

Any information you can give me or any hint that will put my friend on the right track will be gratefully received.

Yours respectfully

Geo. Davidson
